PROFESSIONAL SUMMARY

Experienced Computer Science & Engineering graduate from Daffodil International University with strong expertise in AI, machine learning, and data-driven system development. Currently serving as a polytechnic instructor, skilled in delivering Outcome-Based Education (OBE), designing industry-aligned curricula, and mentoring students in programming, DBMS, and IoT systems. Proven ability in deep learning model development, dataset curation, and building real-world AI applications with a focus on practical impact and academic excellence.

EDUCATION

Daffodil International University (DIU) — B.Sc. in CSE	2020 – 2023
• CGPA: 3.49 / 4.00 Key Focus: Software Engineering, Data Structures, AI, Academic Leadership	
Govt. Rajendra College, Faridpur — Higher Secondary Certificate (HSC)	2016 – 2019
• GPA: 3.42 / 5.00 Science Group	
Bhanga Govt. Pilot High School — Secondary School Certificate (SSC)	2015 – 2016
• GPA: 5.00 / 5.00 Science Group	

ACADEMIC & TEACHING EXPERIENCE

Instructor (CST) — IMB Polytechnic Institute, Ashullia, Savar, Dhaka	Feb 2026 – Present
- Deliver comprehensive lectures and laboratory sessions in Programming in C, Data Structures & Algorithms, and Database Management Systems (DBMS). - Mentor and guide final-year engineering students through practical web development, Sensor & IoT system architectures, and capstone project ideation. - Implement outcome-based assessment methodologies covering Operating Systems, Computer Architecture, and Microprocessors.	
Junior Instructor (CST) — Dhamrai Polytechnic Institute, Dhamrai, Dhaka	Feb 2025 – Jan 2026
- Spearheaded academic delivery for foundational courses, including Java Programming, Object-Oriented Design, and E-Commerce CMS setups. - Provided targeted mathematical instruction across Mathematics 1, 2, and 3, directly addressing the academic gaps of struggling and at-risk students. - Evaluated academic performance metrics through rigorous project-based evaluations, laboratory test execution, and comprehensive grading structures.	
Course Trainer (Basic Computer Course) — Dhamrai Polytechnic Institute, Dhaka	June 2025 – Aug 2025
- Delivered hands-on training across MS Office (Word formatting, complex Excel formulas, PowerPoint presentation design) and core Computer Graphics concepts. - Managed end-to-end curriculum lifecycle: lesson planning, building practical assessments, performance tracking, and granting final certifications.	

INDUSTRY & AI ALIGNMENT EXPERIENCE

Service Operations (AI Data Infrastructure) — Quantigo AI, Uttara, Dhaka

Oct 2024 – Nov 2024

- Reviewed complex data annotation tasks and curated niche datasets to optimize AI training quality frameworks, communicating ambiguities to PM teams.
- Formulated constructive feedback criteria for annotators, actively refining operational guidelines to improve overall ML model baseline predictions.

Data Science Intern (Remote) — Oasis Infobyte, New Delhi, India

Feb 2024 – Mar 2024

- Contributed to predictive analytics pipelines, machine learning structures, and deep learning projects using remote version control tools.
- Developed data preprocessing mechanisms, implemented feature extraction, and benchmarked baseline models to achieve enhanced validation metrics.

AI PROJECTS & TECHNICAL ACHIEVEMENTS

Multi-Disease Prediction System | Machine Learning | [Web App](#)

2023 – 2024

- Built an intuitive diagnostic web application leveraging Streamlit, Pandas, Matplotlib, and Scikit-learn to forecast multiple clinical disorders based on user health parameters.

Kidney Cancer Detection Engine | Deep Learning Stack | [Git](#)

Nov 2023

- Developed a high-accuracy neural network classification infrastructure utilizing Keras and TensorFlow to accurately detect anomalies within biomedical imaging datasets.

Flower Identification Application | Deep Learning & Computer Vision | [Git](#)

July 2023 – Dec 2023

- Engineered an image recognition interface using OpenCV and Streamlit to successfully process real-time imagery inputs and classify plant variations dynamically.

TECHNICAL & PEDAGOGICAL SKILLS

- **AI & Data Science Stack:** TensorFlow, Keras, Scikit-learn, Pandas, Data Annotation, OpenCV, Streamlit, Matplotlib.
- **Core Programming & Databases:** Python, Java, JavaScript, PHP, C, C++, HTML5/CSS3, SQL (MySQL), NoSQL (MongoDB).
- **Tools & Architecture:** Git, VS Code, Google Colab, Jupyter Suite, Advanced MS Excel, Microprocessors, Sensor & IoT Devices.

Academic Reference

Mayen Uddin Mojumdar

Assistant Professor, Department of CSE
Daffodil International University
